Geomorphology 17 (1996) 363–364

GEOMORPHOLOGY

Contents Volume 17, 1996

Vol. 17, Nos. 1–3

Preface 1
Rates of aeolian transport on a beach in a temperate humid climate
S.M. Arens 3
Saltation and wind-flow interaction in a variable slope wind tunnel
K.R. Rasmussen, J.D. Iversen and P. Rautahemio 19
The role of streamline curvature in sand dune dynamics: evidence from field and wind tunnel measurements
G.F.S. Wiggs, I. Livingstone and A. Warren 29
Airflow up the stoss slope of sand dunes: limitations of current understanding
A.J. Frank and G. Kocurek 47
Sediment flux and airflow on the stoss slope of a barchan dune
N. Lancaster, W.G. Nickling, C.K. McKenna Neuman and V.E. Wyatt 55
Evolution of a dune from crescentic to parabolic form in response to short-term climatic changes: Råbjerg Mile, Skagen Odde, Denmark
K.L. Anthonsen, L.B. Clemmensen and J.H. Jensen 63
The late Holocene coastal dunefield at Vejers, Denmark: characteristics, sand budget and depositional dynamics
L.B. Clemmensen, F. Andreasen, S.T. Nielsen and E. Sten 79
Evaluating eolian–climatic interactions using a regional climate model from Hanford, Washington (USA)
L.D. Stetler and D.R. Gaylord 99
Thermoluminescence and new ^{14}C age estimates for late Quaternary loesses in southwestern Nebraska
P.B. Maat and W.C. Johnson 115
Origin of the late Quaternary dune fields of northeastern Colorado
D.R. Muhs, T.W. Stafford, S.D. Cowherd, S.A. Mahan, R. Kihl, P.B. Maat, C.A. Bush and J. Nehring 129
Geomorphology and sediments of sand ramps in the Mojave Desert
N. Lancaster and V.P. Tchakerian 151
Wind streaks: geological and botanical effects on surface albedo contrast
J.R. Zimbelman and S.H. Williams 167
Luminescence dating of sand ramps in the Eastern Mojave Desert
H.M. Rendell and N.L. Sheffer 187
Infra-red stimulated luminescence dating of sands from the Cronese Basins, Mojave Desert
M.L. Clarke, A.G. Wintle and N. Lancaster 199
Eolian sediments generated by anthropogenic disturbance of playas: human impacts on the geomorphic system and geomorphic impacts on the human system
T.E. Gill 207
Calibration of GOES-VISSR, visible-band satellite data and its application to the analysis of a dust storm at Owens Lake, California
D.J. MacKinnon, P.S. Chavez Jr., R.S. Fraser, T.C. Niemeyer and D.A. Gillette 229
Modelling the spatial variation of processes in the redistribution of soil: digital terrain models and ^{137}Cs in southwest Niger
A. Chappell 249
Quantitative estimates of the effect of climate change on dust storm activity in Australia during the Last Glacial Maximum
G.H. McTainsh and A.W. Lynch 263

Vol. 17, No. 4

Research Papers

Quaternary soil chronosequences on terraces of the Susquehanna River, Pennsylvania
S.A. Engel, T.W. Gardner and E.J. Ciolkosz 273

Constraining the timing of alluvial fan response to Late Quaternary climatic changes, southern Tunisia
K. White, N. Drake, A. Millington and S. Stokes 295

Distribution and morphology of sinkholes triggered by flooding following Tropical Storm Alberto at Albany, Georgia, USA
J.A. Hyatt and P.M. Jacobs 305

Longitudinal profile evolution of valleys on coastal terraces under the compound influence of eustasy, tectonism and marine erosion
T. Mizutani 317

A geomorphological approach to sustainable planning and management of the coastal zone of Kuwait
D. Al Bakri 323

Patterns of sand transport on vegetated foredunes
S.M. Arens 339

Underlying gravel layers in a large sand bed river and their influence on downstream-dam channel adjustment
Xu Jiongxin 351

Newsletter of the International Association of Geomorphologists 361
